Intro:

4 1 6- 4 4 1 6- 4

Working hard to tie up the loose ends

So hard to decide who you let in

Put your best foot forward with a grin

6- 4

I can see the fear behind your eyes

Wondering if someone will recognize

You've grown tired of keeping up the lies

6- 4

Chorus:

Don't whitewash the truth about yourself

Nobody's got it all together

If you want to be like everyone else, well

Nobody's got it all together

4 1 6- 4 4 1 6- 4

I have seen the darkness of my heart
 And found a love that taught me its too hard
 To walk through life and not let down my guard

6- 4

What good is it to say please savior come

If there is nothing you need rescue from

Life is something no one has a corner on

6- 4

Chorus

When the parts that are self righteous

Start to disappear

Every other life is

Just another mirror

And life is way too short to run and hide

6- 4
